Teacher training

Building on a teaching tradition dating back to 1890, ESA Saint-Luc Liège School of Art endeavours to set the benchmark of higher education in the arts.

Every year, we welcome over a thousand students from all walks of life.

Our school prepares them for a career in the field of fine arts, spatial arts and visual arts. First and foremost, though, we aim to train our students to become grounded and competent artists capable of understanding the world of today and of becoming actors within it.

Bande dessinée/Comics

Bande dessinée/Comics is a major artistic and cultural practice in Belgium. Since its emergence, after the Second World War, it has continued to evolve, innovate and explore new territories. Building on this heritage, the Bande dessinée/Comics department offers students a course centred on narration through the sequencing of images. The modules focus on drawing and image composition techniques in order to enable students to construct a storyline. Through constant exchanges with teachers - centred around practical and theoretical aspects of image narration - students are empowered to develop their own artistic language and to forge their personality as an author.

イラスト

Illustration

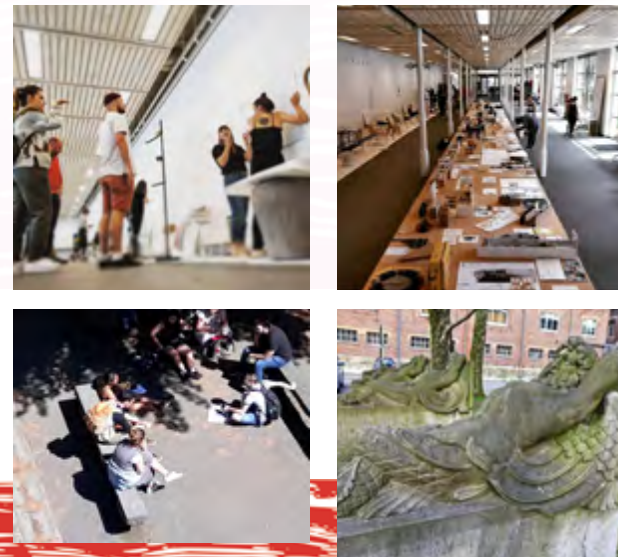

Bande dessinée/Comics and Illustration have much in common: tutors, classrooms and some modules yet their approach to creating images is very different.

WANCQUET Nella

Oui Nils, c'est cela!

C'est absolument exquis.

Quel arbre vais je couper apres?

Pourtant c'est moi qui tien l'hache.

Tous les matins je me reveille...

Est ce que je vais me faire mal si je continue a me poser des questions?

Pourquoi est ce que je me sent controlee?

Je ne sais pas...
...mais je sais que je me pose beaucoup de questions.

...avec difficulté, mais je me reveille...

C'est pour ca que j'essaye de ne pas trop penser...

Pourquoi les arbres perdent du sang?

...Et je marche au travail.

Quelque fois je me sent comme si j'étais un objet...

...pour ne pas trouver de reponses.

Ou sinon je vais finir par comprendre ce que je suis en train de faire.

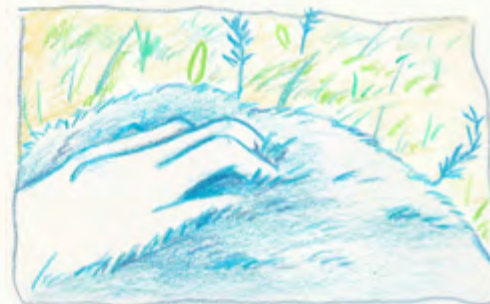

Ou est ce que c'est mon hache qui perd du sang?

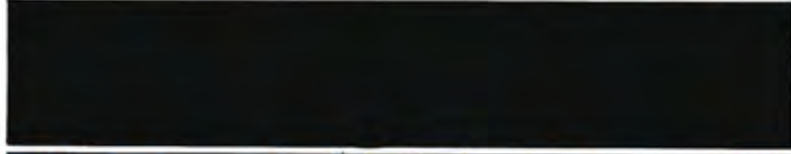

souvent je me demande si je suis une hache...

...ou pas?
